

The Northern Maternal Focus

Premier Offering of All Chimney Butte Ranch AI Bred Heifers, AI Bred Cows & 18 Month Old Bulls

SATURDAY, OCTOBER 28, 2023

2:00 PM CST || St Anthony Verien Hall || St Anthony, North Dakota

Quality Gelbvieh Seedstock

122 Gelbvieh and Balancer Bred Heifers, Cows and Bulls Sell

The Northern Maternal Focus

Gelbvieh and Balancer Bred Heifers, Cows and 18 Month Old Bulls Sell

Sale Procedure and Locations

Cattle Viewing: Chimney Butte Ranch, Mandan, ND

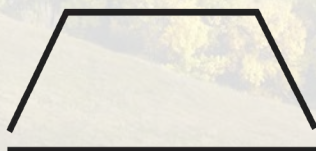

Sale Location: St Anthony Verien Hall, St Anthony, North Dakota.

All cattle will be penned and viewed at Chimney Butte Ranch, Mandan, North Dakota. Cattle will be available for viewing Friday, October 27 and Saturday, October 28, 2023.

Auction will be held via video at St Anthony Verien Hall with video of each respective animal displayed on large screens as animals are auctioned.

Bull Development and Guarantee

Our bulls were fed the same ration as previous years, Until Feb 1, when we made the tough decision to cancel our spring sale. We put the bulls on a higher roughage ration with a planned growing ration of 1 to 1.5 lbs gain per day. When winter finally left us the ration changed to chopped hay and some corn. When summer came, the ration was long hay and limited grazing. To add condition for the sale, about Sept 1, we put Purina Accuration in the bull pen with the long hay. Free choice mineral and salt has always been available. We feel we have grown the bulls and not pushed them to their true potential. I believe these bulls have been developed for longevity, and will adapt quickly to new feeding or pasture programs. If you would like more details of the feeding program, please call and we can discuss. All bulls are guaranteed breeders under terms and conditions recommended by the AGA.

Welcome to our production sale.

NOTHING IS AS CERTAIN AS CHANGE

Mother Nature certainly gave us some challenges last winter. Record snowfall in early November, followed by severe cold and several storms, forced us to make many changes in our operation. Feeding the animals to keep them warm and healthy was a challenge. Our working facilities and working corrals were constantly snowed in. Our days were long, our fuel bill was high, but the cattle made it thru in good shape.

Quite honestly, our spring sale was cancelled because we were just overworked and could not properly prepare for the sale. We had discussed combining the bull sale with our fall heifer sale many times. Mother Nature made the decision for us.

The bulls have been culled heavily, and are ready for work. In the past I have been more than satisfied with the older bulls we have purchased. I am very pleased with the quality and condition of these bulls.

As in the past, every heifer that bred A-I is offered in this sale. We also added every older cow that settled A-I to this sale. The females we are offering represent over 30 years of maternal focused breeding. No A-I bred females have been held back. Ultrasound technology was used for breeding date confirmation and fetal sex determination. We have culled for various reasons and we reserve the right to cull until the sale.

We also changed the physical sale location to provide a more comfortable and enjoyable experience. The animals are available for viewing at the ranch, with the sale only 15 miles away. Come visit the ranch, view the animals, have a cup of coffee, visit with us before the sale. Immediately after the sale, we will be providing a supper for our guests. The meal will be catered by Rusty's Bar and Grill.

What has not changed is our commitment to quality and customer satisfaction. We have sold animals from Canada to Mexico, and Washington State to Georgia. Our animals have performed well in many different environments and management systems. We have worked hard to create a reputation for honest hard working animals that will adapt to most environments. Our mission has been and continues to be "TO PROVIDE GENETICS THAT HELP INCREASE OUR CUSTOMERS PROFITS".

To help make your selection, we have many tools available. Performance data, Pedigrees, genomic test results, videos, pictures catalogues and most certainly direct communications with us, text, phone, or e-mail. Please take time to review this offering and let us know how we can help. DV Auction, phone bids, and third party bidders will be available to those who cannot make it in person to the sale. We will work hard to make your purchase a very satisfying experience. YOUR COMPLETE SATISFACTION IS IMPORTANT TO US.

GOD BLESS

Due March 15, 2024 to DCH Triple K Husker G413 with a bull calf. Donor prospect for the breeder looking for the extra special heifer. Look close at the video, look at the picture, they describe better than I could. Her sire, DCH H705 was the high selling black bull in 2021 selling to Overmiller Gelbvieh in Kansas. Ultrasound indicates she is carrying a bull calf to the DCH G413 Husker bull. This may be that special red heifer you are looking for.

Due March 16, 2024 to DCH Hille H719 Hagar with a bull calf. Her maternal grand dam also sells in this sale. The first attribute this female exhibits is a superior hip and quarter. One of the best in this sale. Mr Destination has really done a nice job for us. Ultrasound indicates a bull calf safe to Herbie H705.

Due March 15, 2024 to JKGF J198 with a heifer calf. Her sire 931G sold the high selling Black bull, J167 in our 2022 bull sale. Her maternal grand dam raised the high selling heifer, G534, in our first bred female sale. Not much more to say about this quality female. Ultrasound indicates a black heifer calf sired by the exciting new J198 bull. A package chucked full of potential.

Due March 15, 2024 to JKGF J198 with a heifer calf.

Choco and Eli influences combined to make a super smooth clean female. A dam of merit and dam of distinction in the maternal pedigree. Impressive EPD's that indicate great performance and above average CE and BW allows for creative flexible breeding plans. Ultrasound indicates a black heifer calf from J198. This one is not to be overlooked.

Due March 15, 2024 to DCH Hille H719 Hagar with a heifer calf.

Maternal genetics by design, two ET sired females in the maternal pedigree all but insure strong maternal traits. C169 genetics from the sire side only add to this strength. Ultrasound indicates a heifer calf sired by H719 Hagar.

Due March 15, 2024 to DCH G421 with a heifer calf.

A heifer with great phenotype and performance. Her mother, a purebred we believe, cannot be identified with a tattoo. She is a super cow and brings in a great calf every year. Use her commercial or as a 50% in a purebred operation, either way she will add to most herds. Sired by Eminence the futurity winner. She carries a heifer calf from DCH G421, confirmed by ultrasound.

Due March 15, 2024 to JKGF J198 with a heifer calf.

Maternal plus!! Her sire's pedigree includes Sam, Dollar, Tye and the matriarch U510 cow. The maternal pedigree, has 2 Dams of Distinction, including T111, 5 times dam of merit, 3 times dam of distinction. Her impressive phenotype and overall good looks only adds to the package. She is a herd builder and will compliment nearly any operation. No doubt top shelf. Ultrasound indicates she carries a heifer calf to our new sire JKGF J198, a High Call son with MB and FPI in the top 1% of the breed.

55	50	20	30	15	15	50	90	25	55	85	45

Due March 15, 2024 to DCH G421 with a heifer calf. Her dam, B502, is a result of our ET program. The sire of B502 is Roy R126 who put a foundation group of females in the pasture for the Golden Buckle operation. The maternal grand dam, L112, is one of the most prolific females we ever raised, she gave us over 30 calves. Adding the power of Sam and Dollar from the sire side of the pedigree is just an enhancement of strong maternal genetics. Ultrasound indicates a heifer from the G421 bull. Both service sire and heifer are homozygous black assuring a homo black calf.

Due March 16, 2024 to DCH G421 with a bull calf.
We are waiting confirmation of who the sire from the breeding group is. Regardless of who the sire is, she is one really good female, and her maternal pedigree is loaded with performance. Ultrasound indicates a bull calf from G421.

Babe's of the Blizzards

The spring of 2022, when these heifers were born, was extremely difficult. Our area experienced 3 storms in 3 weeks giving us in excess of 36 inches of snow and 2 inches of rain, followed by record cold temperatures. We feel fortunate to have had minimum losses during the storms and resulting wet and muddy conditions for several weeks after the storms. Some of our cows were wintered and calved at a cooperator breeder. Like us, not all processes were completed to our expectations. Some of the calves did not get identified to dams, and many birth weights were estimates, not scale weights. DNA samples and paperwork for registration, was sent to the AGA in March 2023, somehow the material was not processed. In September 2023 the AGA acknowledged their error and DNA processing was started. At catalogue time, parentage, on some animals, is still not available. As parentage is determined by DNA, we will post on our websites. We will also provide available information at sale day on a supplement sheet. Rest assured, these are all sired by AGA registered sires whose progeny have been sold or retained in our herd from previous years. These are top shelf animals that will make great mama cows, purebred or commercial. The following heifers do not have parentage identified as the catalogue goes to print. These animals have been sorted based on individual merit with no bias for genetic history. These calves, born in very tough conditions, with limited shelter, show the true ability and endurance of animals in our breeding program. The animals without pedigree information are offered as commercial bred heifers. Their calves can be registered as 50% GV, or higher. If pedigree and DNA information is not available sale day it will be provided to the buyer when, and if the AGA completes testing.

51 *DCH HILLE K671*

DCH K671 Red Polled

Due March 16, 2024 to DCH Hille H719 Hagar with a heifer calf.
The youngest calf we put thru the A-I program. Her ability to breed with her older pen mates, shows her early maturing and strong Gelbvieh maternal traits. Ultrasound indicates a Hagar H719 heifer calf.

52 *DCH HILLE K637*

DCH D637 Red Polled

Due March 16, 2024 to DCH Hille H719 Hagar with a heifer calf.
A nicely made heifer, darker red, good volume and a smooth shoulder. Ultrasound indicates a heifer calf sired by Hagar H719.

53 *DCH HILLE K641*

DCH K641 Red Polled

Due March 16, 2024 to DCH Hille H719 Hagar with a heifer calf.
Big, big volume, and the extra length to make this dark red female stand out in the crowd. One of the very good ones. Ultrasound indicates a heifer sired by Hagar H719.

54 *DCH HILLE K643*

DCH D643 Red Polled

Due March 16, 2024 to DCH Hille H719 Hagar with a heifer calf.
A really good long heifer, phenotypically correct, walks out straight plenty of bone and structure to make a great mama cow. Ultrasound indicates a heifer from the H719 "Hagar" bull.

55 *DCH HILLE K645*

DCH K645 Red Polled

Due March 16, 2024 to DCH Hille H719 Hagar with a heifer calf.
Pretty as a picture, a complete heifer that will compliment any herd. Halter break her, take her to the fair as a cow calf pair, or just have her as princess of the herd, a very good prospect. Ultrasound indicates a heifer sired by Hagar, H719.

56 *DCH HILLE K647*

DCH D647 Red Polled

Due March 16, 2024 to DCH Hille H719 Hagar with a bull calf.
Really nice big volume, with lots of rib shape. Good quarter with a nice feminine front end. Ultrasound indicates a bull calf sired by Hagar, H719.

DCH HILLE K643 Sells as Lot 54

57 *DCH HILLE K650*

DCH K650 Black Polled

Due March 15, 2024 to DCH G421 with a heifer calf.
A good long heifer, with good rib shape and volume. Ultrasound indicates a G421 heifer calf. I would expect a long bodied heifer calf, with extra depth of rib and a good big hip.

58 *DCH HILLE K654*

DCH D654 Black Polled

Due March 16, 2024 to DCH Hille H719 Hagar with a heifer calf.
Plenty of length, smooth front end and that mama cow look. Ultrasound indicates a heifer sired by Hagar H719.

59 *DCH HILLE K661*

DCH K661 Black Polled

Due March 16, 2024 to DCH Hille H719 Hagar with a bull calf.
This heifer is a bit more moderate framed than most, but has the extra length to make her very desirable. Smooth and clean up front. Ultrasound indicates a bull calf sired by Hagar H719.

Due March 27, 2024 to DBRG Mr Destination 931G with a bull calf.

We have had Csar in our program for years, and have had several commercial operators use him in their heifer breeding programs. This Csar heifer is smooth clean and easy to look at. Ultrasound indicates a bull calf from 931G. This should be an exciting match of complimentary EPD's and phenotype.

Due March 27, 2024 to DCH Hille C169 with a heifer calf.
Sired by Passion, a Breeders Choice Futurity winner, backed with her Dam's sire, Hille T266 Tye. An outstanding, eye catching female that just flat stands out. She is carrying what should be an exceptional heifer calf from DCH C169. This is one calf I really want to see. Fetal sex and due date indicated by ultrasound.

Due March 27, 2024 to JKGF J198 with a heifer calf.
Her mother, D454, is a dam of merit for the third year in a row. Her grand dam, X204, achieved dam of merit 3 times. Her maternal great grand dam has achieved Dam of Distinction 4 consecutive years. That is an impressive maternal foundation to build a herd on. Add in Eminence, Breeders Choice futurity winner, as her sire. Compliment her breeding with our new herd sire J198. Ultrasound says heifer. This is one very special package. If you want a maternal genetic package that is top shelf, look no farther.

Due March 27, 2024 to DCH Hille C169 with a bull calf.
A dollar Daughter bred to C169. This mating has as much potential as anything in the sale. The phenotypes complement each other, the EPD's complement each other. She is a powerful good looking female. Her dam, D494 is also in this sale. Ultrasound indicates a bull sired by C169. RED BREEDER ALERT

Due March 27, 2024 to JKGF J198 with a bull calf.
Her maternal great grand Dam, P196, achieved Dam of Merit 3 times, and Dam of Distinction 7 times, we have never owned or raised another cow that has achieved to this level. P196 was also the oldest cow we ever kept in the herd. We have several females in the herd with P196 influence. Her phenotype, EPD's, and maternal strengths should be complimented nicely with the service sire J198. Ultrasound indicates a bull safe to J198.

Performance plus. Top 2% or better for WW, YW, TM, and CW EPD's. Top 3% in the breed for FPI. You will run the wheels off the truck looking for this kind of performance in a red bull. Numbers are one thing, but the package this bull presents is equally impressive. The maternal pedigree includes Cornhusker Red and the dam of the Stock Options bull, B189. If you have a red program, and have not used C169, this is one of the last chances as there are very few straws available.

Probably the best black C169 son we have raised. Quite honestly, if we would have had a bull go down this summer, he would have been put to work in our herd. Still not sure I should sell him, but we are keeping a 50% semen interest in him, and wish to collect him before he ships. He moves easy, he is deep, soggy, thick, smooth shouldered, and carries a great rear quarter. Watch this video close, he is impressive. Herdsire material for the breeder looking for elite genetics.

This homozygous black bull has everything in the right place. Performance, calving ease, maternal, milk, carcass, and marbling are all in the top 10 to 15% of the breed EPD's. He is deep, he exhibits a good hip, he walks with that loose and free hide. Just a good prospect for a progressive breeder.
