Quality Gelbvieh Seedstock

235 Gelbvieh Bred Heifers and Bred Cows Sell

Chimney Butte Ranch

WELCOME TO THE CHIMNEY BUTTE BRED FEMALE DISPERSION

Thanks to all who have followed our program and helped make our operation a success. Our customers' success has kept our operation evolving to meet the needs of the beef industry. The seed stock business has introduced us to many people from all walks of life. We will forever be thankful for the customers we have had, many whom we refer to as friends, and others from the industry that have helped guide us in our journey.

Most opening letters talk about the cattle, the program and other details. I have chosen this page to reflect on where we came from and how our operation developed.

Late 1989 we purchased the CHIMNEY BUTTE RANCH. No one seems to know when it was named but all agree it was named for the rock outcropping along the butte and ridge that resemble chimneys. The previous owner had retired, and had not lived on the ranch for 12 years prior to our purchase. The ranch was run down, in disrepair, overgrazed and needed environmental stewardship. Our purpose for purchasing the ranch was investment, recreation, and planned retirement income.

We purchased our first cattle, 40 open Gelbvieh heifers in 1991. They were to be grazed in odd pastures that were difficult to rent out. We thought a few cows would be a great hobby along with our horses. It didn't take long for us to realize the cattle hobby had become a passion. Carol made the decision to quit teaching and take care of cows while the herd grew. The operation involved all of our children in different ways, but the results of growing up on a ranch created three very successful children, each in their own terms. To say Carol and I are proud of our children would be an understatement.

My off farm employment in technical industrial sales exposed me to many management theories. The PROCESS OF CONTINUOUS IMPROVEMENT, training and practices I was exposed to fit in to the management needed to transform the run down property into something we could be proud of. We have been mavericks in the neighborhood, we proved you could chase cows with a 4 wheeler, our small fields were not too small for 4 wheel drive tractors, high tensile electric fence would never work in the rough country, running water pipe on top of the ground will never work, cover crops are for the south, no till farming is for Iowa, not the rough country west of the Missouri and Gelbvieh cattle are not a good choice for this area. Yes we did humor the neighbors, yes we had plenty of failures, but we transformed a run down, non-productive piece of real estate, into an operation that is now productive, filled with wildlife, and environmentally looking to the future. The Gelbvieh cattle have been the core to making this place successful. The Gelbvieh cattle have adapted to winter grazing with minimal hay unless the snow becomes too deep. The disposition of the cattle allow some marginal fences in areas tough to get to.

Over the years we have sold cattle from Mexico to Canada, and from Georgia to Washington State. We have had semen sold and used across the country as well. We are always proud to get a call telling us of success in herds our genetics work in. We have never put a number of cows as a goal. Rather we have chosen quality, performance, calving ease and disposition as our goals. From a humble beginning of 40 open heifers, to a peak of nearly 350 mama cows, our focus has always been on function and productivity.

As we show more gray in our hair, as the cows get faster and the fences get higher, change is inevitable. We have chosen this time to disperse our herd for several reasons, most notably lack of labor in our area. We feel now is the right time to slow down, Carol and I are both relatively healthy and hope to stay active. We feel this is the right time to disperse, before we can no longer give the time and effort needed to support quality cattle. In short we have worked hard to create a reputation of good hard working cattle and do not want to let that slip.

The future for us is open, we plan to keep a few cattle around, and I am sure Carol will appreciate a little more free time. Our oldest grandson is playing his first year class A football, and we would like to show him more support. I have an old car that needs to be driven more, the horse is getting lazy from not enough use and I always enjoy hunting season. Only the Maker knows our future, and we are thankful for each day he gives us. A warning to our many friends and customers in the Gelbvieh business, Carol likes coffee, I like Dr. Pepper. Don't be surprised if we show up on your doorstep some morning!! We do plan on visiting many of you in the future.

The cattle we are selling have been culled hard. Any defects we could find, bad attitudes, poor feet, poor eyes, open cows have been taken out of the sale. If we were to stay in the business these cows would bring us calves next spring. Look over the catalogue, pictures and videos, do not be afraid to ask us questions. If you need help bidding or shipping let us know.

This catalogue is not large enough for all the thank you's, for helping us thru our journey. Friends, family, ranch help, bankers, fellow breeders, sale manager, auctioneer, and most importantly thank you to all that have supported our program. We truly appreciate each and every one that has supported us over the years.

The biggest thank you goes to the Good Lord for giving us the opportunity to care for his land and livestock. We have taken that responsibility to heart and tried our best. This has been a blessed opportunity that few of us get. We hope he is proud of what we have done.

GOD BLESS

Doug, Carol, and family

Chimney Butte Ranch

Complete Bred Female Dispersal

SATURDAY, OCTOBER 26, 2024

12:00 CST || Kist Livestock Auction || Mandan, North Dakota

235 Bred Heifers and Bred Cows Sell

JKGF H031 Sire of lots 1-10

We Purchased H031 in the spring of 2022 Genetic Power Bull Sale. He was our choice for a high volume bull with exceptional calving ease and carcass mated with our cows to keep our performance and maternal values at an optimum level for our environment. His first daughters sell this year with very high expectations for our buyers.

Chimney Butte Ranch Bred Heifers

DCH HILLE L781
Sells as Lot 15

DBRG Mr Destination 931G Sire of lots 15-30

Destination 931G was purchased from Rippe Gelbvieh to produce a complete product in our heifers, bulls and steers for feedlot. His progeny have fit our program very well producing a product in the females selling that will fit the industry desires today. High volume cattle that perform with calving ease, maternal and carcass values. We are proud of this outstanding sire group and the future these females hold.

DCH Hille F213 Sire of lots 31-39

We have retained many of our DCH sires through the years to maintain an outcross pedigree foundation that offers genetics unlike many Gelbvieh breeders. DCH F213 is a sire that we retained that breeds high performance in the top 25% of the breed. These daughters selling have eye appeal, high performance, strong maternal values and well above breed average for carcass values.

Chimney Butte Ranch Bred Heifers

DCH HILLE L728
Sells as Lot 40

DCH HILLE L818 Sells as Lot 41

PTL 18F Sire of lots 40-53

We brought PTL 18F into our program for his outcross genetics, extreme calving ease with performance, big volume and eye appeal. He passes these traits to his daughters. One of the more attractive and impressive sires walking our pastures.

Chimney Butte Ranch Bred Heifers

DCH HILLE L757
Sells as Lot 54

DCH Hille G421 & DCH Hille J303

Sires of lots 54 - 64

G421 and J303 are both sires that were retained here at Chimney Butte to breed heifers. This group of young females represents the combination of quality and durability it takes to thrive in our operation. We are excited for the future of these 2 sire groups. We bred G421 and J303 again to females selling in the sale.

Sells as Lot 67

KHR 88J & PTL 90H

Sires of lots 67 - 71

These are red sires we purchased from Kicking Horse Ranch and Praise The Lord Gelbvieh. The red genetics have been an important part of our program from day 1. The daughters of these 2 sires are very attractive and genetically fit our breeding program. Red purebred genetics have been a very important resource for our customers through the years.

Chimney Butte Ranch Dispersal Trucking and Transportation Information

Transportation of the animals from Kist livestock is the buyer's responsibility. Bob Wolsey Trucking, will be on site sale day to coordinate and begin transporting the animals for buyers who need transportation. Please inform Kist Livestock if you will handle your own transportation, or wish to have Wolsey Trucking arrange.

Animals will be delivered to central locations in the United States. Any animal delivered within 1000 miles of Bismarck will have a maximum cost of \$250 each. Up to 2000 miles in the United States, maximum cost will be \$350 each. Animals requiring international shipping or having quarantine requirements, will be delivered back to Chimney Butte Ranch for all testing and billed on an individual basis reflecting actual costs. All export expense is buyers responsibility

Wolsey trucking has transported seed stock to and from Chimney Butte for many years. They have good, clean equipment and drivers who handle the animals carefully. For more detailed information, please contact Bob Wolsey at 406-670-1877.

If other assistance is needed, MMS or Doug Hille will assist you.

Chimney Butte Ranch Bred Heifers

DCH HILLE L894 Sells as Lot 78

PTL Eli 117E Sire of lots 78-84

Eli 117E is a complete outcross red sire that is strong in calving ease and produces high volume daughters. The outcross genetics of Eli mated well in our program.

Chimney Butte Ranch 2-3 Year Old Cows

DCH HILLE K436
Sells as Lot 96

Chimney Butte Ranch Bred Cows

This selection of bred cows selling have withstood an extreme culling process, stood the test of harsh winter conditions over the years and dealt with extreme drought in certain years as well. The females are not pampered, however we do expect them to breed and bring home a big calf each year. The summer pastures are in the river breaks that require the cattle to travel across miles to graze and maintain. We are very thankful how they have endured the tests of terrain and environment at Chimney Butte. You can expect them to have longevity and endurance.

DCH TRIPLE K HUSKER G413 Sire of lot 113

DCH Triple K Husker G413 and DCH Hille Dollar D610

Husker and Dollar are 2 sires that have continued building a strong female foundation in the past 10 years. The Dollar females are among some of our top producing females each year. High volume/low input females we can depend on. Husker is a bull we sold that has been used breed wide in AI programs. The Husker daughters bring calving ease, performance and carcass in a very useful package.

Pasture Exposure and Breeding of all Chimney Butte Ranch Bred Females Selling

All females selling are pasture exposed to multiple sire groups. The sires are listed in the footnote of each respective female. All pasture exposure sires with registration numbers are listed in the reference sires section on pages 39 and 40.

All sires have DNA on file with the American Gelbvieh Association. When registering calves, buyers will need to sire verify the calf with your DNA sent to AGA.

Pasture Exposure and Breeding of all Chimney Butte Ranch Bred Females Selling

All females selling are pasture exposed to multiple sire groups. The sires are listed in the footnote of each respective female. All pasture exposure sires with registration numbers are listed in the reference sires section on pages 39 and 40.

All sires have DNA on file with the American Gelbvieh Association. When registering calves, buyers will need to sire verify the calf with your DNA sent to AGA.

- Notes -

We bought this bull as a backup for our heifer program. He was needed and we have been very happy with his calves and the calving ease he gives us.

Old genetics that did a great job for us in his heyday. Bred a cow to him this year.

CROSSBREEDING is easy with GELBVIEH

“the Continental breed of choice”

PERFORMANCE

Gelbvieh maternal influence in a crossbreeding system offers added fertility, increased longevity, and more pounds of calf weaned per cow exposed.

PRODUCTIVITY

The crossbred female is 30 percent more productive over her lifetime. Greater productivity equates to more money in the bank.

PROFITABILITY

Using Gelbvieh genetics can increase profitability through heavier weaning weights, feed bunk efficiency as well as heavier, faster gaining feeder cattle.

Andrea Peales
Graphic Design

Gelbvieh genetics deliver *maternal superiority* in planned crossbreeding systems. Highly productive cows with adaptability, versatility, and stayability can have a positive impact on your bottom line.
